

## Directions for Decorating Your Shield

1. In space 1, write your name. Include your middle name or initial or nickname if you wish. Decorate this space – drawing symbols of at least three things you really value – things that are very important to you. For example: a smiley face could symbolize happiness; a heart, love; a tree, respect for nature; two stick figures, friendship.
2. In spaces 2 and 3, write two words that you would like people to be able to use to describe you. For example: honest, kind, funny, strong, sensitive, understanding.
3. In spaces 4 and 5, draw symbols of two things you would like to achieve or accomplish in your lifetime. You could draw something to represent your hoped for profession. Examples: a stethoscope for a doctor or nurse, a chalkboard for a teacher, a gavel for a judge; a tennis racket for a tennis champion; a plane for a carpenter.
4. In space 6, write a quotation or motto that you like to live by. You can use something a famous person wrote, something from the bible or write something original.
